Comprehensive Program Materials

Florida Teacher's Resource Kit

- Teacher's Editions
- Assessment Teacher's Guide
- Word Study Teacher's Guide
- Library Teacher's Guide
- FCAT Practice Teacher's Guide
- Expedition DVDs
- Transparencies
- Passport Reading Journeys Training Packet
- Training DVD

Florida Student Reading Pack

- Student Anthology
- Student Workbooks
- Student Assessment Book
- Word Study Student Book
- FCAT Practice Book
- SOLO Student Password

Classroom Materials

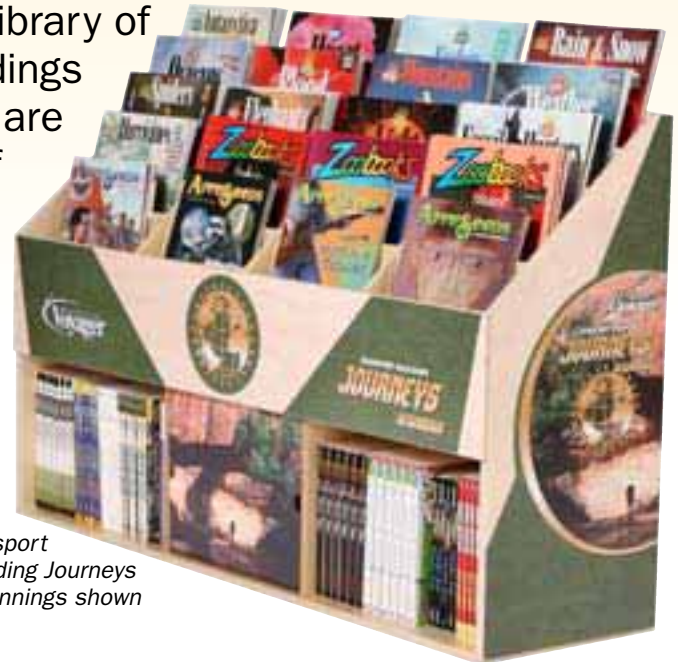

- Passport Reading Journeys Library

Passport Reading Journeys Libraries

Each Florida classroom receives a rich library of books and magazines that provides readings at three different Lexile® ranges. These are leveled reading materials on a variety of topics and genres that students use in their reading practice and lesson time.

- Partner and independent reading opportunities improve fluency.
- Library Teacher's Guide includes relevant activities related to each book.
- Magazines and chapter books provide diverse reading opportunities.

Abundant Support for Teachers

The comprehensive Florida Teacher's Resource Kit includes all of the necessary components needed to effectively teach *Passport Reading Journeys* – Florida Edition lessons **with minimal preparation time.**

- The Florida Teacher's Edition **includes explicit detailed instruction** in each daily lesson. Student pages embedded within Teacher's Edition lesson pages offer quick reference for teachers.
- Correlations to FL Sunshine State Standards reading/language arts content are noted within the Teacher's Guide.
- The **Library Teacher's Guide** gives an overview of the books and magazines that may be used to appropriately match instructional text to each student. The guide also includes student activities and **blackline masters.**
- Assessment Teacher's Guide provides **step-by-step instructions** for administering and scoring reading benchmarks and progress monitoring.
- Passport Reading Journeys Training Guide, Training DVD, and online resources provide initial and ongoing implementation support.
- VPORT is the web-based data management system teachers use to enter Reading Benchmark Lexile® and VIP® scores. Teachers can access instant reports that illustrate each student's learning growth to adjust instruction if needed. District administrators can view real-time data at the student, classroom, school or district level to inform decision-making. Customized district-wide reports facilitate fidelity checks to ensure accountability at all levels.

The **Word Study Teacher's Guide** provides an additional thirty lessons focusing on fundamental reading skills for your most struggling readers in a small group setting.

Expedition Topics

Getting Students Excited to Learn with Engaging Topics

The most important factor for striving students in middle and high school to become strong, thriving readers is motivation. Each level of *Passport Reading Journeys* includes 15 Expeditions related to high-interest science, math, literature, and social studies topics that are relevant in modern society and inspire students to engage in reading.

Each Expedition is introduced with an action-packed video segment, hosted by teenage guides. The guides pose probing questions, highlight interesting vocabulary words, make relevant connections, and engage students in thinking about topics as far-ranging as the Internet, microscopic things, and cars as culture.

Passport Reading Journeys **Beginnings**

Connections:

Self Realization

911:

Differentiated Learning Experiences for Students

- Each Student Anthology engages and accompanies students with **expository reading passages** at an appropriate instructional level accompanied by dynamic illustrations.
- The Student Assessment Book provides multiple opportunities for students to gauge their progress.
- The FCAT Student Practice Book provides **multiple practice opportunities to practice performance on FCAT style fiction and nonfiction reading selections.**
- Individual student needs are met with whole-group instruction combined with collaborative and independent practice using Lexile-leveled passages.

Strategic Online Learning Opportunities (SOLO) provide **Lexile-leveled passages** for students to practice and apply newly learned skills.

The Word Study Student Book contains 30 lessons, and provides working text and daily passages for students who need additional instruction and reinforcement in phonic elements and sight words.

VOYAGER EXPANDED LEARNING

1.877.FLREADS

Special Emphasis on Content Area Reading

Each Expedition in *Passport Reading Journeys* addresses the topics that expand students' knowledge in science, social studies, math, fine arts, and literature.

- Explicit teaching of key text structures found in information texts.
- Engaging activities help students make concrete connections to abstract historical and scientific information.
- Career-based activities suggested by the Expedition topics inspire students to imagine themselves in stimulating and rewarding positions in the future.

Independent Practice with SOLO

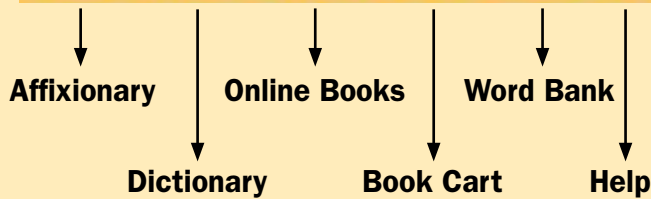

Strategic Online Learning Opportunities

After concept introduction provided by the teacher, students continue their reading Expedition online with SOLO.

- Explicit instruction and practice matched to the teacher-directed instruction in vocabulary, comprehension, and fluency.
- Individualized instruction is made easy through reading passages at three Lexile ranges.
- The animated format and online environment keep students motivated to learn.
- Timed activities and self-assessments provide immediate feedback and opportunities to track student progress.

Additional Student Support

Affixation: Students look up prefixes and suffixes.

Dictionary: Students look up challenging word definitions.

Online Books: Students can access two on-topic books that provide audio support as they read.

Book Cart: Additional texts are provided at various levels and are related to SOLO topics.

Word Bank: Students may create a personalized bank of words from the SOLO word list.

Help: This feature allows students to review the instruction for each comprehension strategy.

Motivation and Skills Through the Online Environment

Expedition hosts from the DVD video segments guide students through all of their SOLO lessons.

Students simultaneously read and hear instruction on key reading skills. Research has shown that this simultaneous presentation of audio and visual stimuli results in significantly better reading performance.

Independent reading is performed with a variety of texts on the science and social studies Expedition topics. These passages are timed to check the student's reading speed.

Comprehension checks Comprehension checks are provided to monitor student comprehension. Immediate feedback is provided to the student and teacher. Progress is monitored in the VPORT data management system.

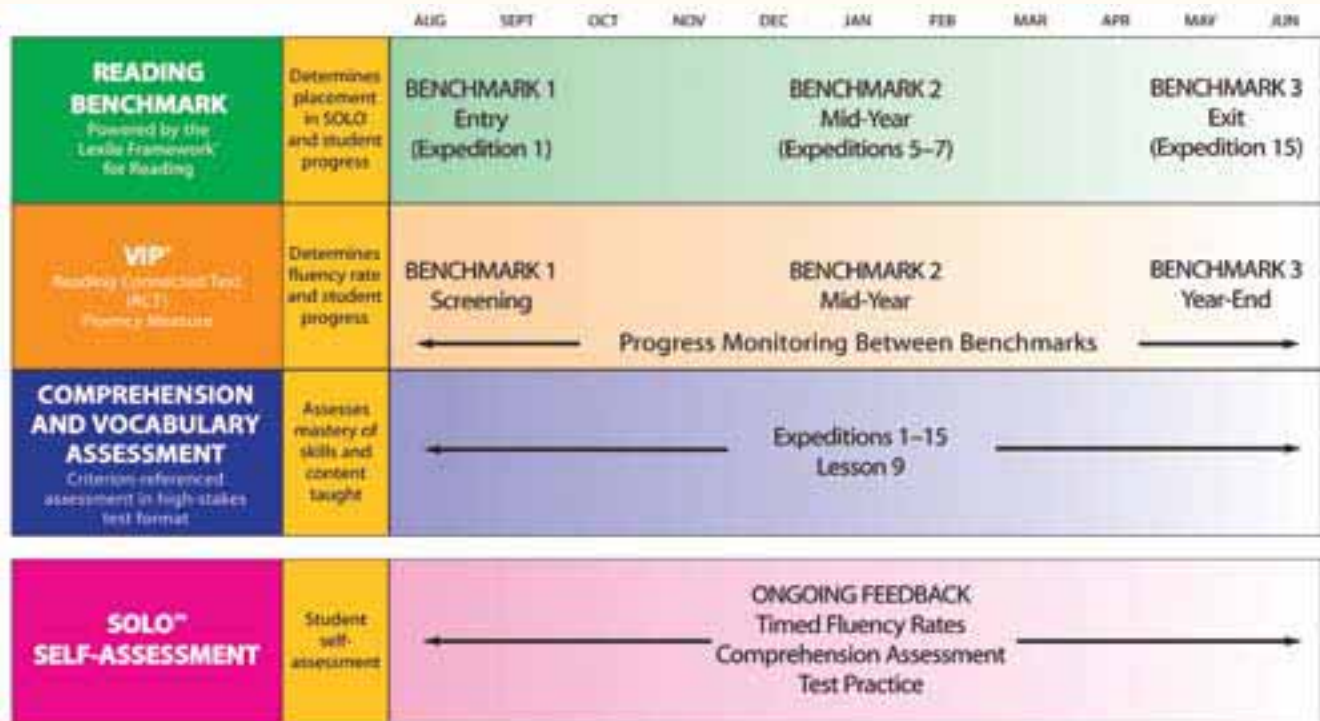

Chart Your Course ...

by pinpointing each student's abilities using benchmark assessments and progress monitoring

Flexibility in the amount of assessment you choose for your students. *Passport Reading Journeys* provides the highest quality of assessment reporting for placing students and monitoring progress.

VPORT™ Data Management System

This powerful online tool allows you to closely monitor student development of key reading skills. With VPORT™, you will be able to: ...

- enter assessment scores and access student data online.
- monitor student growth in reading proficiency.
- compare student data against a trajectory of desired learning.
- make instructional decisions and adjustments based on student data.
- use individual student data in discussions with parents about reading development.
- access support materials to add to your classroom instruction.

The VPORT online data management system requires no software to install. It only requires Internet connectivity and can be accessed anywhere and at any time.

www.voyagerlearning.com

VOYAGER EXPANDED LEARNING

1.877.FLREADS

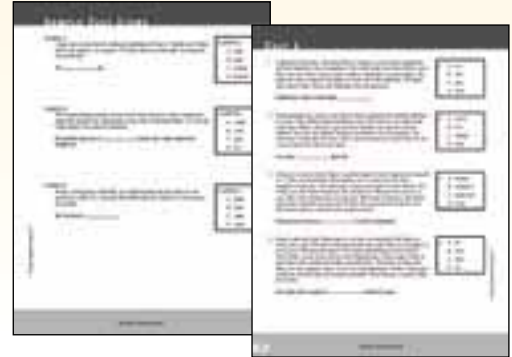

Track Their Progress

with VPORT, a Web-based data management system for simplified reporting at all levels

VPORT

Reading Benchmark

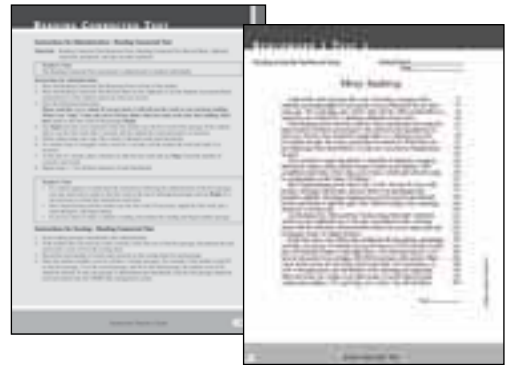

Passport Reading Journeys utilizes standardized Lexile® tests to determine the reading level of each student. VPORT™ system automatically calculates Benchmark Lexile® scores and places students in their reading for the online independent reading in SOLO™ and the *Passport Reading Journeys* Library.

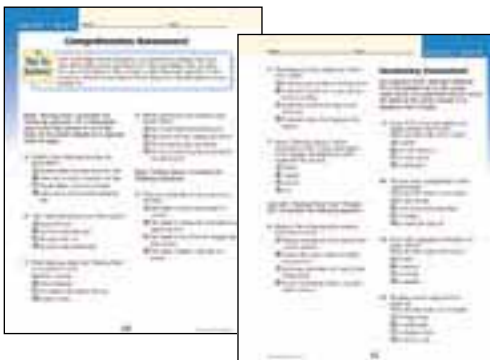

VPORT

VIP Benchmark

The Reading Connected Text assessment measures the student's ability to read a grade-level passage with accuracy and speed. It indicates the student's progress in developing fluency.

Comprehension and Vocabulary Assessment

Formative assessments are built into the *Passport Reading Journeys* lessons and Student Book at the end of each Expedition. Each Comprehension and Vocabulary Assessment provides practice in a high-stakes testing format and checks the student's understanding of the current Expedition.

VPORT

SOLO Progress Report

During a SOLO session, students make choices or select answers as they progress through reading passages. SOLO provides corrective feedback to the student while reporting student choices to VPORT.

Free Training Resources

Focus on Fidelity

Voyager provides FREE training and ongoing professional development support that is focused on research-based instructional practices and assessment tools. The hands-on, interactive design can be used in structured environments or in self-paced individual settings.

The Florida Training Plan provides:

- **Curriculum Overview:** Introduction to Voyager Program Curriculum Features
- **Lesson Preparation and Practice:** Observing a Modeled Lesson; Organizing the First Lesson
- **Assessment Overview:** For those new and experienced with fluency and Lexile-based assessments
- **Assessment Instructions and Practice:** How-To Instructions; Video Practice
- **VPORT™ Data Management System:** Navigating VPORT; Analyzing Data
- **Implementation:** Managing teacher and classroom time with ease
- **FCAT Preparation:** How Passport Reading Journeys – Florida Edition supports your FCAT efforts

The Florida Training DVD serves as a personal tutor for teachers providing additional implementation resources including assessment administration and practice. **NEW** Online product training available 24/7.

The VPORT online data management system requires no software to install. It only requires Internet connectivity and can be accessed anywhere and at any time.
